

Yucca Weekly Update

Councilmember Joyce Clark - City of Glendale, Arizona

Yucca District - where Glendale's past, present and future meet.

April 8, 2011

On Saturday, Councilmember Clark joined the fun and gave opening remarks at "Walk Like MADD" the signature event for Mother's Against Drunk Drivers (MADD). This fun, community-driven 5K walk raises funds which help to save lives. A big crowd was on hand for the walk, held at Westgate City Center on April 2.

Later on Saturday, Clark attended Desert Mirage's Annual Volunteer Picnic. What a great way to recognize all those neighbors who volunteered their time and energy to clean up Desert Mirage Park periodically throughout the year.

Councilmember Clark sends thanks to all who help keep our neighborhoods clean and strong!

Fuel Use Reduced by 129,000 Gallons. With gas prices flirting with the \$4 mark, the city of Glendale's three-year move to reduce gas consumption will help blunt the pain at the pump for the city's fleet of just over 1,200 vehicles.

Over the past three years, the city has reduced the number of vehicles it operates by 106. It has also downsized 200 vehicles from V-8 to more fuel efficient 4 cylinder models, and has 300 vehicles that can operate on E85, a fuel mixture of 85 percent ethanol and 15 percent unleaded gas. E85 currently costs \$2.71 per gallon, significantly less than unleaded gas.

The fleet vehicle reduction, along with other city moves, has resulted in 1,245,000 fewer miles driven and a 129,300 gallon reduction in fuel used. That could calculate to a half million dollar savings.

Other moves by the city include piloting the use of hybrid vehicles and creating a motor pool of 21 vehicles taken out of regular service. The motor pool gives city departments access to vehicles on an as-needed basis without having to maintain the full operation costs of having a dedicated vehicle. The motor pool was a large factor in the city's ability to reduce its fleet of vehicles from 1,414 in 2009 to 1,209 currently.

Another factor in the city's efforts to reduce fuel consumption is its rigorous maintenance schedule. Factors like proper tire inflation and clean air filters affect a vehicle's gas mileage. For tips on how you can reduce your personal gas consumption, [click here](#).

Camelback Road Storm Drain Project. The Flood Control District's project is making progress after experiencing a setback a few weeks ago with the sink hole at 67th and Camelback. This intersection is now open.

Beginning at 3:00 a.m., Monday, April 18th, the intersection of 59th Avenue and Camelback Road will be closed to all traffic to allow construction of the storm drain improvements through the intersection. This closure is required due to the size of the pipe, construction of system structures, and safety of the assembly crew and the traveling public. The intersection will be closed for 9 days – through 3 a.m., April 27.

Alternative routes will be mandatory during this closure. **Access to local businesses adjacent to the intersection will be restricted, but maintained.** Please expect delays, use caution, and observe construction barricading and signage at all times.
